Smile Analysis

When I see my smile or a picture of myself, the first thing I notice about my smile is:

Something I notice about other peoples smiles that I like:

What would be on your smile wish list:

- I wish my teeth were straighter
- I wish my teeth were whiter
- I wish my teeth were smaller
- I wish my teeth were bigger
- I wish my gums did not show as much
- I wish I could close a gap in my smile

What has kept you from making any Wish List changes to your smile:

- I have never been informed of the options available to me
- I have concerns regarding the cost of the treatment
- I have not made time to have treatment presented or performed
